## HELEN OF TROY LIMITED REPORTS SALES AND EARNINGS FOR FOURTH QUARTER AND FISCAL YEAR 2006

**EL PASO, Texas, May 9** – Helen of Troy Limited (NASDAQ, NM: HELE), designer, developer and worldwide marketer of brand-name personal care and household consumer products, today reported sales and earnings for the fourth quarter and fiscal year ended February 28, 2006.

Fourth quarter sales increased 5.4 percent to \$134,508,000 from \$127,617,000 in the same period of the prior year. Net earnings for the fourth quarter were \$6,645,000 or \$0.21 per diluted share versus \$11,984,000 or \$0.37 per diluted share for the prior year quarter. Fourth quarter sales were led by increased sales from OXO, Retail Appliances and Latin America.

Full year net sales increased to \$589,747,000 from \$581,549,000 in the prior year. Net earnings for the year were \$49,310,000 or \$1.56 per diluted share compared with \$76,450,000 or \$2.35 per diluted share in the prior year. For the full year sales were led by increased sales from OXO, Latin America and Canada.

As reported on March 1, 2006, the Company completed a repatriation of foreign earnings during the fiscal fourth quarter, incurring a one-time tax charge of approximately \$2.8 million or \$0.09 per fully diluted share. Excluding this one-time charge, net earnings for the fourth quarter was approximately \$0.30 per fully diluted share, compared with our guidance provided on January 9, 2006 of net earnings for the fiscal fourth quarter of \$0.15 to \$0.25 per fully diluted share. Full fiscal year net earnings excluding the one-time tax charge was \$1.65 per fully diluted share versus guidance of net earnings for the year of approximately \$1.49 to \$1.59 per fully diluted share.

At February 28, 2006, the Company's balance sheet included cash of \$18 million, with no outstanding borrowings on its \$75 million revolving line of credit. Stockholders' equity was \$475 million, which represents an increase of \$55 million in stockholders' equity from the previous year-end. Book value at year end was approximately \$15.04 per fully diluted share. Quarter end inventory at February 28, 2006, declined approximately \$16 million or 9 percent from the previous quarter ending inventory at November 30, 2005. Inventory at year-end was \$168 million compared to \$137 million at the prior year-end. The increase was due primarily to the OXO and Idelle Labs distribution center transitions.

Gerald J. Rubin, Chairman, Chief Executive Officer and President, commenting on the results stated, "We

-more-

are pleased that the fourth quarter financial results exceeded our expectations. In spite of a very challenging retail environment in the personal care segment over the past year, we were able to successfully complete several of the corporate initiatives we identified as objectives for the fiscal year. The initiatives last year included the following:

- *OXO International*
  - *Completion of OXO integration into corporate operations*
  - *Growth of existing products and new categories*
- *Build upon the Idelle Labs product categories of grooming, skin and hair care brands*
- *Build upon European and Latin American appliance business*
- *Pursue strategic acquisitions in personal care and housewares categories*
- *Leverage investment in capacity and infrastructure through available synergies*

“We are expecting to see improvements in overall financial results for fiscal year 2007. We anticipate that those improvements will occur in the second half of the fiscal year, as we continue to believe that personal care sales will be flat to slightly higher, with higher selling, general and administrative expenses during the first half of our 2007 fiscal year. We believe sales in the first quarter will be negatively impacted by the transition of OXO to the new distribution center.

“As previously announced, Helen of Troy completed its 1,200,000 square foot distribution center in Southaven, Mississippi, and expanded its eastern United States distribution capacity to accommodate the distribution needs of the OXO business. This new distribution center will replace our existing facility and increase our presence in Southaven, Mississippi from 619,000 square feet. The OXO inventory transfers from Monee, Illinois to our new distribution center were substantially completed during the current quarter and customer shipments are now being processed from the new facility. We anticipate that the new distribution center will reach normal shipping capacity of the transitioned OXO inventory during the second fiscal quarter.

“We have secured various additional product placements at certain major customers for the coming year. These additional product placements should assist in achieving improved financial performance in the current fiscal year. As a result, we believe the current year financial results will exceed last year’s results, but the first quarter may lag slightly behind that of last year’s first quarter, due primarily to the first quarter distribution center transition issues. Full year sales guidance for the fiscal year ending February 28, 2007 is therefore expected to be in the range of \$600 to \$620 million, or an increase in sales of 1.7 to 5.1 percent over the prior year. Full year earnings per diluted share are expected to be in the range of \$1.70 to \$1.80, or an increase of 9 to 15 percent over prior year

earnings per diluted share,” Rubin concluded.

The Company will conduct a teleconference in conjunction with today’s earnings release. The teleconference begins at 11 a.m. ET today, Tuesday, May 9, 2006. Members of the news media, investors and the general public are invited to access a live broadcast of the conference call via the Investor Relations page of the Company’s website at [www.hotus.com](http://www.hotus.com). The event will be archived and available for replay through June 30, 2006.

This information may be considered non-GAAP Financial Information as contemplated by SEC Regulation G, Rule 100. Accordingly, we are providing the preceding table which reconciles these measures to their corresponding GAAP based measures presented under our Consolidated Condensed Statements of Income, in the accompanying press release.

Management believes the presentation of these non-GAAP financial measures, in connection with the results of the fiscal quarter and twelve months ended February 28, 2006, provide useful information to investors regarding our results of operations as this non-GAAP financial measure allows investors to better evaluate ongoing business performance and factors that influenced performance during the period under report. Management also uses these non-GAAP measures internally to monitor performance of the business. These non-GAAP financial measures should be considered in addition to, and not as a substitute for financial measures prepared in accordance with GAAP.
